QP AUTOMATIC TRANSMISSION FLUID

DX-II Type Transmission Fluid

Description

A.T.F. DX-II is an automatic transmission fluid for use when the manufacturer calls for a Dexron DX-II fluid. It is blended from virgin base oils, which have been fortified with anti-wear, anti-oxidant, anti-foam, anti-corrosion and viscosity index improvers together with friction modifiers. This blend of components gives high levels of performance and long service life.

Outstanding Features

A.T.F. DX-II meets or exceeds the following specifications:

- General Motors GM 6137M
- Daimler Benz 236.6
- Allison C-3
- Caterpillar TO-2

Directions for Use

A.T.F. DX-II is designed for use in all transmissions, power steering and hydraulic systems where a DX-II fluid is specified. Due to the high quality of the components used in its manufacture, A.T.F. DX-II gives excellent performance and long service life.

Technical Data

| | |
|-------------------|------|
| Viscosity @ 40°C | 32.0 |
| Viscosity @ 100°C | 6.8 |
| Viscosity Index | >160 |
| Pour Point °C | -45 |

Pack Sizes

210 Lt Drum
20 Lt Pail
5 Lt Bottle
